This changes her thoughts and way she does things in the passages

For example, while giving a sneaky handjob to a student in socializing event 1 in classroom, which takes min 15 corruption to initiate:

<<if \$PlayerCorruption gte 30>>

She leans over and spits on it, lubing it up properly. She still can't believe how comfortable she has gotten giving handies in classrooms to random boys. She starts to stroke the cock gently.

<<else>>Zara could feel her heart beat quickly. Was she really doing this, in a classroom where anybody could catch them?

She spit on her hand and grabbed the boy's cock gently.<</if>>
